Labor-Saving Machinery plays an important part in any manufacturing plant. Without these the cost of production can be kept down only by employing cheap help—which means inferior workmanship—or by using the cheapest grades of stock. All of this applies to printing and binding as much as to any other producing business. *Stop and consider.* THE TUTTLE COMPANY of Rutland, Vt., have the largest and best equipped office in the State. They invite you to call and inspect their labor-savers.

Labor-Saving Machinery plays an important part in any manufacturing plant. Without these the cost of production can be kept down only by employing cheap help—which means inferior workmanship—or by using the cheapest grades of stock. All of this applies to printing and binding as much as to any other producing business. *Stop and consider.* THE TUTTLE COMPANY of Rutland, Vt., have the largest and best equipped office in the State. They invite you to call and inspect their labor-savers.
